Shit GoldenPaper

GOLDSHIT ~ The Golden Shit

The WYPE ShitFarm, an extended rewarding pool for WYPE token. This is additional way to grab the shit from WypeVault contract.

The same mechanism of 24hrs timer for claiming reward like we already had in DYPR ShitPool and WYPE WypePool.

Eligibility: user needs to rent a GoldenShit at price of 10 MATIC each, and it expires after 24hrs from rental time.
Once the GoldenShit expires, you can claim your WYPE reward and clean the shit.

Shares is determined by total GoldenShit in circulation. eg: if there are 10 people renting 1 GoldenShit each, then you have 10% shares for next 24hrs claim. If you're the only person renting the GoldenShit then you have 100% share for next 24hrs claim.

The money you spend to rent the GolenShit will be converted directly into WYPE LP, and it will create a small pump effect for WYPE price.
